

CAMDEN
COUNTY
COLLEGE

Transfer Programs

Program Description

This transfer program is designed for students who have a strong interest in biology and who plan to major in biology at a four-year college or university.

Program Information

This program prepares students to:

- Enter specialized upper level courses botanical, zoological, genetics, microbiological and other fields
- Meet the academic challenges of new advances in molecular biology
- Utilize practical skills in microscopy, dissection, field work, and data collection

Employment Opportunities

- Researcher in pharmaceutical and biomedical laboratories
- Laboratory technician
- Preparation for pre-professional careers such as Medicine, Dentistry or Veterinary Medicine
- Education

Contact Person

Professor Rita Connolly, Chair
 (856) 227-7200, ext. 4462
 E-mail: rconnolly@camdencc.edu

Highlights
 Graduates have successfully transferred to Rutgers University, Cornell University, Richard Stockton College of New Jersey, Thomas Jefferson University and other four-year institutions.

LIBERAL ARTS AND SCIENCE

Biology Option

Degree: **Associate in Science**

College Code: **BIO.AS**

Code	Course	Credits
First Year/First Semester		
BIO-111	Biology I - Science	4

.....	Laboratory Science Elective	4
.....	Literature Elective	3
.....	Social Science Elective ¹	3
HPE.....	Health & Exercise Science Elective	1
		15
Second Semester		
PHY-102	Physics II	4
MTH-111	Elements of Statistics I or	
BIO-250	Co-op I: Science or	
.....	Laboratory Science Elective	3/4
.....	Computer Information Systems Elective	3
.....	Social Science Elective ¹	3
HPE.....	Health & Exercise Science Elective	1
		14/15

¹Secondary education majors should take Basic Psychology (PSY-101) and Educational Psychology (PSY-103) for the two social science electives and Historical Trends in American Education (EDU-101) for the humanities elective.

Program Description

The curriculum leads to the bachelor's degree in business administration. Specialized fields in upper division studies include accounting, business administration, economics, finance, human resource management, marketing, computer studies, and other business-related professions.

Program Information

The program provides general education in communications, math/science, humanities, and computer literacy; and presents a core of studies in accounting, law, management, and economics.

Recommendations

- Students should contact transfer institution before enrolling in the program.
- Students should enlist the assistance of academic advisors in choosing electives.
- This program is designed for the student who wishes to transfer to a four-year college or university.

Contact Persons

Professor Maria Aria, Coordinator
(856) 968-1257
E-mail: maria@camdencc.edu

Highlights

The program prepares students who are interested in Business to transfer to a four-year institution. **NJ Transfer** is a web-based data information system designed to provide a seamless transfer from New Jersey community colleges to New Jersey four-year colleges and universities. Visit the Web site at www.njtransfer.org.

¹ Electives should be selected with the assistance of an academic advisor or counselor.

² Business Law II OR Principles of Marketing OR Cost Accounting

Program Description

The Business Administration Option to the Liberal Arts and Sciences program is designed especially for students who intend to continue their studies toward a baccalaureate degree in computer programming or computer information systems with a minimum of transfer loss.

Program Information

The program provides Information Systems professionals with a solid background in liberal arts and sciences and sufficient knowledge in business, accounting, programming, and systems to operate effectively in a business computing environment.

Employment Opportunities

An Information Systems major can lead to careers in hardware, software, algorithms, databases, tactics, programming, and man-machine interfaces used to create, capture, organize, modify, store, protect, access, and distribute information for use.

- Business
- Education
- Government
- Industry
- Library
- Public and private sectors
- Research

¹ Choose from the following Math electives:
MTH-125 College Algebra and Trigonometry
MTH-129 Discrete Mathematics-corequisite for
Computer Science II (CSC-223)

MTH-122 Applied Calculus
MTH-140 Calculus I
MTH-150 Calculus II
MTH-111 Elements of Statistics I
MTH-112 Elements of Statistics II
MTH-121 Applied Finite Math

² Prerequisites listed with course descriptions must be met for all programming and math courses. Students should check with transfer institution before selecting Computer Programming and Mathematics courses.

³ Prerequisites should be met for this course.

Program Description

This course of study is designed for students who have a strong interest in chemistry and who plan to work toward a major in chemistry or a related field. Chemistry majors perform laboratory procedures in biotechnological, health care and other related fields. They also enter ancillary fields such as forensic science, engineering and education.

Program Information

The Liberal Arts and Science: Chemistry Option:

- Provides hands-on experience of current laboratory techniques; teaches the use of the scientific method
- Prepares graduates to transfer to a four-year institution.

Employment Opportunities

- Chemical Engineer
- Education
- Laboratory Technician
- Physician
- Physical Therapist
- Physician's Assistant

Recommendations

Preparation for Chemistry (CHM-010) is required for those who have not had high school chemistry. Students should select courses according to the needs of the transferring institution.

¹ Secondary education majors should take Basic Psychology (PSY-101) and Educational Psychology (PSY-103) for the two social science electives.

² CSC-121 Structured Programming (C++) and CSC-161 Introduction to Java are transferable programming courses.

Program Description

This program is designed to teach the technology, theory, and process of communication. Students participate in internships at local media operations and businesses.

Program Information

The program enables students to understand the media's obvious and subtle effects on the individual and society and prepares students to understand the importance of mass communication.

Employment Opportunities

- Advertising
- Editing
- Newspaper journalism
- Radio broadcasting
- * Audio Production
- Corporate & Industrial Telecommunications
- Cable
- Internet
- Research
- TV Broadcasting & Producing

Program Description

This program prepares students for careers in journalism. In addition to offering a general liberal arts and sciences curriculum, the program examines various media and discusses specific techniques used in combining writing and journalism.

Program Information

Graduates will be able to apply their writing and photography methods to the print media.

Employment Opportunities

- Magazine photography
- Newspaper photography
- Public relations photography and writing
- Freelance photography
- Wire Services
- Picture agencies
- Book Illustrator
- Internet

Highlights

- Students participate in internships at local media operations and businesses.
- Students transfer to four-year institutions offering programs in photo-journalism.
- Volunteer to serve as a staff photographer for *The Campus Press*, the campus newspaper, or *Bridges*, the Literary publication.

¹ Must take 6 credits in one language

² See individual languages under *Course Descriptions* for requisites on placement.

² (CSC) course should be selected for the Computer Information Systems Elective

Program Description

This program is designed especially for those students who wish to specialize early or who are already employed in a related occupation.

Program Information

The program enables students to understand the media's obvious and subtle effects on the individual and society; prepares students to understand the importance of public relations and advertising; and enables students to understand the management of relationships between an organization and its public.

Employment Opportunities

- Advertising
- Corporations (employee, media, government, community, and consumer relations)
- Nonprofit organizations and trade associations
- Independent public relations agencies
- Integrated marketing communications
- Governments

Campus Opportunities

Working with student organizations, clubs and some non-profit agencies in the county, students in the public relations course learn how to research, plan and communicate a public relations proposal.

Highlights

- Students participate in internships at local media operations and businesses.
- Students transfer to four-year institutions.

Program Description

This career-oriented program can transfer to baccalaureate programs in computer-related fields. It uses state-of-the-art hardware and software.

Program Information

The program:

- Prepares graduates for intermediate-level employment in the graphics industry
- Provides the most advanced equipment available
- Enables students to demonstrate knowledge of the changing industry standard and technical development in computer graphics

Employment Opportunities

- Computer animation
- Computer graphics
- Electronic publishing
- Multimedia

Highlights

There are cooperative education opportunities with local employers. This course transfers to baccalaureate programs in computer-related fields.

¹ Must take 6 credits in one language

² See individual languages under *Course Descriptions* for requisites on placement.

² Recommended Course: Design I: Two Dimensional (ART-160)

³ Recommended Course: Basic Drawing (ART-121)

Program Description

Designed to provide graduates with techniques in graphics and electronic publishing layout skills, the program focuses on the use of application software and hardware. State-of-the-art micro-based laboratories are available to all course students.

Program Information

The program:

- prepares graduates for entry-level positions in the electronic publishing business
- acquaints students with equipment commonly found in graphic design companies.

Employment Opportunities

- Advertising agencies
- Computer graphics
- Electronic publishing
- Newspapers

³ Recommended Course: Design I: Two Dimensional (ART-160)

³ Recommended Course: Basic Drawing (ART-121)

Program Description

The curriculum in Computer Science is oriented towards science and technology and spans the range from theory to programming. It emphasizes software design and programming, computer architecture and functions, and development of an ability to analyze problems and use the computer as a problem-solving tool. Students graduating from the program will be awarded an associate in science degree.

Program Information

The program is designed as the first two years of a BS in computer science degree at a baccalaureate institution.

This program provides:

- Articulation with computer science programs in baccalaureate institutions
- A study of mathematics, computer theory, and programming
- A strong computer foundation as well as a strong liberal arts background

Employment Opportunities

- Artificial intelligence
- Computer Architecture
- Computer design
- Computer Programming
- Computer Theory
- Operating Systems and Networks

Program Description

This program is a transfer curriculum that awards the associate in arts degree. The program is designed as the first two years of a typical computer science degree at a baccalaureate institution.

Program Information

This program:

- Provides articulation with computer science programs in colleges of liberal arts and sciences
- Provides a study of mathematics, computer theory, and programming
- Equips students with a strong liberal arts background

Employment Opportunities

Computer Science professionals work in a variety of environments in academia, research, industry, government, and private and business organizations in such areas as:

- artificial intelligence
- computer architecture
- computer design
- computer programming
- computer theory
- operating systems and networks

MTH-111 - Elements of Statistics I, MTH-125 - College Algebra and Trigonometry

MTH-145 - Linear Algebra, MTH-140 - Calculus I, MTH-150 - Calculus II

MTH-210 - Calculus III

²Must take 6 credits in one language

*See individual languages under *Course Descriptions* for requisites on placement.

Program Description

The criminal justice program prepares students for employment with municipal, county, state, and federal law enforcement agencies. This program has both a career and a transfer component.

Program Information

The program provides students with the skills necessary for comprehending the sociological, psychological, and economic causes of crime; helps students to demonstrate an understanding of the Constitution of the United States and a respect for the rights of all citizens; and helps students to apply logic and critical thinking skills to resolving problems of the criminal justice practitioner.

Employment Opportunities

- Law enforcement officer at the municipal, county, and state levels
- Correctional officer
- Investigator within the county, state, and federal governments
- Probation aide

¹Students who pass a qualifying exam are encouraged to take CIS-206 Advanced Computer Concepts

Highlights

Students are able to transfer to various colleges offering degrees in criminal justice.

Program Description

The program teaches students to discover movement as a means of expression and development of ideas. It offers techniques of body control, rhythm, and movement. This option offers equal concentration in classical, ballet, modern and jazz. Each semester the students participate in a dance concert and in theatre musicals.

Program Information

The program focuses on artistic, creative, technical, and theoretical training, and emphasizes the students' realization of their creative and performance potential.

Special Program Requirement

Dance majors will be asked to audition.

Employment Opportunities

- Choreographer
- Dance therapist
- Director of dance company
- Performer
- Teacher

Highlights

This course transfers to baccalaureate programs in dance.

Students have the opportunity to do their own choreography for the dance concerts.

¹It is recommended that students select THE-151

²Must take 6 credits in one language

*See individual languages under *Course Descriptions* for requisites on placement.

Program Description

This option is designed to meet the needs of students who wish to learn about deafness and sign language in depth but do not wish to become professional interpreters. Although the Deaf Studies option is similar to the Interpreter Education program, it does not require that students take courses specifically designed to enhance or teach interpreting skills. Instead, the Deaf Studies Option offers a more general education in liberal arts.

Program Information

The program provides fluency in American Sign Language; fosters a commitment to empower the deaf in society through support service initiatives; and prepares students to assess the communication needs of the deaf in a variety of settings.

Employment Opportunities

Though this curriculum does not prepare students for specific careers after graduation, the broad liberal arts background assists students in pursuing careers in deafness which require advanced degrees. These careers include audiology, counseling for the deaf, and psychology for the deaf.

Contact Person

Professor Brian Morrison, Coordinator
 Telephone: (856) 227-7200, ext. 4948
 E-mail: bmorrison@camdencc.edu
 Professor Sally Ann Emilius
 Telephone: (856) 227-7200, ext. 4968
 TTY: (856) 374-5045
 E-mail: semilius@camdencc.edu

Recommendations

A general education background prepares students for transfer to upper level institutions in fields relating to the deaf. Specialization within the option increases opportunities for employment in a variety of emerging professions serving the deaf.

¹ Recommendation: American Sign Language I (ASL-101) to be taken prior to First Year/First Semester

² Recommendation: Elective courses to be Deaf-related course or geared toward career path.

Program Description

This program is essentially the first two years of a baccalaureate degree in elementary and secondary education. The curriculum is specific in order to facilitate transfer of Camden County College credits. The curriculum is based on New Jersey State Teacher Certification requirements and teacher transferability to education programs in the region.

Program Information

Although the intent of this program is to transfer to a four-year school of education, students who have earned their associate's degree would qualify for the following positions:

- Group teacher
- Substitute teacher
- Teacher's aid

Contact Person

Dr. Jane Weber, Coordinator
 (856) 227-7200, ext. 4766
 E-mail: jweber@camdencc.edu

Program Information

Secondary Education students interested in a math, biology, chemistry or physics co-major should follow the curriculum for the Liberal Arts and Science Mathematics Option, the Liberal Arts and Science Biology Option, the Liberal Arts and Science Chemistry Option, the Liberal Arts and Science Physics Option and not the Elementary/Secondary Education curriculum.

¹ Elementary Education students should enroll in MTH-105 Math Systems I: Structures, and MTH-106 Math Systems II: Geometry, as their two Mathematics Electives.

² The electives are chosen from those courses which articulate to the student's transfer institution's education program. Students are strongly recommended to check with their curriculum advisor.

³ A student who intends to choose the elementary history coordinate or the Communication: Writing Arts coordinate at Rowan University should enroll in economics or political science. A student who intends to choose the Elementary American Studies coordinate at Rowan University should enroll in American Government.

⁴ A student who intends to choose the History coordinate at Rowan University OR the Education majors at Rutgers University should enroll in World Literature in lieu of either Introduction to Literature or American Literature. A student who intends to enroll in the American Studies coordinate or the Communications: Writing Arts coordinate at Rowan University should take American literature.

⁵ A student who intends to choose the American studies coordinate at Rowan University should enroll in Art History

Program Description

Engineering uses the physical sciences to design and develop products and systems. It uses problem-solving techniques to find solutions to technical problems and other complex issues facing society.

Program Information

The program combines general education courses with math and science courses to establish a foundation for further study of engineering; recommends articulation with four-year colleges of engineering; and establishes and maintains credibility with businesses specializing in design/development engineering.

Special Admission Requirements

Students entering this program should have had above average achievement in high school science and mathematics and should have taken one year of high school physics, chemistry, and English.

To begin this program, students must have had three years of academic mathematics.

Employment Opportunities

- Design engineer
- Insurance adjuster
- Maintenance engineer
- Maintenance supervisor
- Research and development assistant

¹ Students planning to major in Chemical Engineering should take Organic Chemistry I & II in lieu of Statics.

² Microeconomics (ECO-102) is recommended.

Program Description

The program is designed to constitute the first two years of a baccalaureate degree in English. It prepares a student for transfer to the junior year at a four-year college or university.

Program Information

The English Option is primarily designed for students who wish to transfer as English majors to four-year colleges and universities. It offers course preparatory to advanced study in writing and literature. The program provides basic college level writing courses as well as opportunities for creative writing, and offers surveys of major literary fields such as American, English, and World Literature. Strong writing skills and experience in the interpretation of literature are valuable in a wide variety of professions as well as in the traditional careers of teaching, writing and editing.

Special Program Information

As soon as possible, students are recommended to access curriculum requirements of possible transfer institutions.

Employment Opportunities

- Teaching
- Writing
- Editing

 E-mail: ddaniels@camdencc.edu

Note

While many colleges and universities accept most if not all of the literature courses the student chooses to take toward his or her major, there are some institutions that will only accept courses in World Literature and Shakespeare.

¹ Introduction to Literature is suggested, especially for those students whose experience in literature is limited.

² Both language electives must be in the same language.

* See individual languages under *Course Descriptions* for requisites on placement.

Program Description

The program prepares students for careers in specific art-related industries. It is designed to enable students to recognize and adhere to professionalism in industrial art and transfer into BA programs.

Program Information

The program:

- Provides students with a sound course of study
- Prepares graduates to create, select and organize work for submission in the exit portfolio
- Prepares graduates to demonstrate knowledge of technical development and changing standards in industry
- Teaches students to problem solve
- Teaches students how to make connections between culture & design
- Prepares students to communicate ideas

Academic Opportunities

- Independent Study
- Service Learning
- Art Co-ops/Internships
- Visiting Artists/Lectures/Trips

Employment Opportunities

- Graphics
- Illustration
- Industrial design
- Printmaking
- Fashion design
- Interior design
- Architecture
- Cartooning/Animation

Program Description

The program prepares students for careers in specific art-related fields. It is designed to enable students to recognize and adhere to professionalism in art making & presentation & transfer into BA programs.

Program Information

The program prepares graduates to create, select, gather, and organize work for submission in the exit portfolio, and helps students attain the mental, visual, and manual skills necessary for success in making art.

The purpose of the program is threefold:

- To provide students with basic information necessary to begin work in their primary area of study
- To provide students with a strong comprehensive foundation in liberal arts and art history
- To provide students with a nurturing environment where they can analyze, criticize and examine their art and consider the artist's role in society.

Program Description

The Health and Exercise Science option prepares a student to receive an Associate in Science degree (A.S.) and transfer to a four-year college to major in a variety of related fields in health, physical education, athletic training, and exercise science.

Program Information

The Health & Exercise Science Option:

- Provides students with a background sufficient to transfer for advanced degrees
- Exposes students to a variety of careers and areas of study within the major

Employment Opportunities

- Employment opportunities in health, physical education, exercise science, fitness, sports medicine and coaching will continue to be in high demand.
- A student interested in a career in health and physical education should demonstrate an interest in working with individuals who may vary in age from pre-school to senior citizen.
- Specific professional opportunities include teaching health and physical education in public and private schools (K-12), directing adults in corporate, private and recreational fitness programs, coaching school and recreational teams and working in sports medicine and allied health settings.

Areas of Employment:

- Teaching physical education and health
- Fitness Centers
- YMCA's
- Wellness Centers
- Corporate Fitness Programs
- Public & Private Schools
- Sports Teams
- Athletic Programs

LIBERAL ARTS AND SCIENCE

Health and Exercise Science Option

Degree: **Associate in Science**

College Code: **HPE.AS**

¹ Offered in the Fall only. Students transferring to Rowan for Athletic Training should see the Program Director.

² Student transferring to Rowan for teaching physical education should take Historical Trends in American Education (EDU-101). Students transferring to Rowan for Athletic Training should take Developmental Psychology (PSY-109). All other students should take Intro to Health and Exercise Science (HPE-101), offered in the fall semester only.

³ Offered Spring semester, day only.

⁴ Students interested in teaching or Athletic Training should take a Dance & Movement or Fine Arts elective. Students interested in Fitness Management should take a Foreign Language elective.

⁵ Students transferring to Rowan for teaching physical education should take Teaching: Introduction to the Profession (EDU-100). Other students should take Health and Personal Living (HPE-104) or Contemporary Health Issues (HPE-190).

Highlights

There are transfer opportunities to the College of New Jersey, Delaware College, Rowan, Rutgers, Temple and West Chester Universities.

Program Description

Concentrations provide depth of understanding of a particular area of knowledge. Students may explore a History Concentration in preparation for transfer to a variety of majors including History and Political Science.

Program Information

The Liberal Arts and Science Curriculum is Camden County College's largest and most successful transfer curriculum. The requirements among broad knowledge areas provide a breadth of understanding expected of individuals in the new millennium. Adding to its appeal is the concentration opportunities available in a number of knowledge areas. Although not specifically arranged as a discipline major, the concentrations offer students a wide range of choice in pursuing an area of knowledge in depth.

Special Program Information

As soon as possible, students are recommended to access curriculum requirements of possible transfer institutions. For students aspiring to major in disciplines related to the concentration area, their specific choices from the list of courses under each concentration should mirror as closely as possible required courses in the first two years of the major at the desired four-year college or university.

Program Description

Human services encompass a wide spectrum of community work designed to help people. Human service professionals work in mental health organizations, developmental disability services, substance abuse programs, and multi-service centers.

Program Information

- Students transferring to Rutgers University and expecting to major in Social Work will need to also apply separately to the School of Social Work.
- Students will be required to do a 120-hour internship with a social welfare agency during the second year, second semester.

Transfer Opportunities

Many of our students go on to earn bachelor's degrees in human services. The most popular transfer destinations include:

- Rutgers University School of Social Work
- Rutgers University Liberal Arts Program
- New Jersey City University
- Rowan University
- The Richard Stockton College of New Jersey
- Thomas Edison State College of New Jersey

Employment Opportunities

- Social service
- Mental health
- Early childhood
- Gerontology
- Community work
- Corrections
- Probation
- Addictions
- Rehabilitation

Contact Person

Professor Habiba Soudan, Coordinator
(856) 227-7200, ext. 4532
E-mail: hsoudan@camdencc.edu

Highlights

- The courses transfer to baccalaureate programs in human services or other related social service fields.
- Over 50% of Human Service students get hired as a result of their internship in Social Welfare agencies throughout the Delaware Valley.

¹Human Biology (BIO-103) is recommended for students transferring to Rutgers School of Social Work.

²Elements of Statistics (MTH-111) is recommended for students transferring to Rutgers School of Social Work.

³Students planning to transfer to a four-year baccalaureate program are recommended to fill electives with Humanities courses.

Program Description

Students graduating from the Early Childhood program are prepared to work with young children in a variety of settings including home day care, childcare centers, preschools and elementary schools. This program emphasizes the developmental needs of young children from birth to the eighth year of life, providing our graduates with an expanding range of career opportunities in the public and private sector.

Program Information

- Early childhood teachers and assistants can fulfill the 15 professional development credits required of public school districts and/or local child care centers through taking courses in the Early Childhood Option. Camden County College is an approved professional development provider by the Department of Education.
- Students with a Certification in Child Development (CDA) from the Child Development National Credentialing Program can enter into the Early Childhood program with advanced standing.

Transfer Opportunities

Many of our students go on to earn bachelor's degrees in human services. Camden County College maintains articulation agreements with many colleges and universities, promoting an easy transfer process for students to enter four-year institutions. The most popular transfer destinations include:

- New Jersey City University
- Rutgers University
- Thomas Edison State College of New Jersey
- Widener University

Employment Opportunities

Career opportunities in early childhood include:

- Assistant Teacher
- Family Child Care Director
- Infant Room Teacher
- K-3 Teacher's Aide
- Pre-Kindergarten Group Teacher
- Special Needs Individual Aide
- Toddler Group Teacher
- Group Teacher
- Substitute Teacher
- Teacher Assistant

¹Students pursuing an education beyond this degree should contact the Human Service Department for advisement. Electives should be tailored to reflect the transferring institution.

²Students not expecting to transfer beyond the associate may take Introduction to Nutrition (FNS-105) for the science elective.

Recommendations

With a degree in Early Childhood Education students can apply for Group Teacher Certification through the New Jersey Division of Youth and Family Services (DYFS) Bureau of Licensing, 32 E. Hanover Street, Trenton, NJ.

Program Description

This program is designed for people who desire an international perspective and have an interest in foreign languages. Employment Opportunities for such people are rising steadily. Thus, degrees in this program may lead to careers in international and cross-cultural settings, language translating, communications, and teaching.

Program Information

The program provides knowledge of the contributions to art, literature, music, and history by people of different nations; develops global perspective through understanding cultural differences and commonalities; develops an understanding of the relationship between human activity and geographical conditions; and broadens cultural experience through a possible study-abroad program.

Graduates of this program successfully transfer to four-year institutions.

Special Program Requirement

Students must complete an Intermediate II level of a foreign language prior to graduation.

Employment Opportunities

- Communications
- Cross-cultural counseling
- Foreign Service
- International business and affairs
- Translations

Recommended Electives

- Computer or business course
- Continuation or start of a second foreign language
- Courses taken abroad
- World Literature I and II

Contact Person

Program Description

Graduates are prepared to enter a four-year program for careers in a variety of clinical and medical laboratories, academic research settings, the biotechnology industry, and diverse commercial laboratories.

Program Information

- The program qualifies graduates to transfer to various baccalaureate degree programs in the clinical laboratory sciences. It enables graduates to perform various laboratory tasks with skill and accuracy.
- The Associate in Science degree, together with an additional two-year program in cytology, cytogenetics, or medical technology, qualifies students to sit for the national certification examination.

Special Program Requirements

Students entering this program should have completed high school biology, chemistry, and two years of college preparatory mathematics.

Employment Opportunities

This program prepares students for transfer to baccalaureate programs in the following:

- **Cytotechnology:** Cytotechnologists screen human cell samples under the microscope, looking for early signs of cancer and other diseases.
- **Cytogenetics:** Cytogeneticists prepare, study, identify, and interpret normal and abnormal chromosomes.
- **Medical Technology:** Medical technologists perform analytical and diagnostic tests on various body fluids.
- **Biotechnology:** Biotechnologists apply biologic and engineering principles to develop solutions to problems in health care and the manufacturing of pharmaceuticals.

Recommendations

Students should select electives based on transfer institution requirements.

Graduates have transferred to such institutions as Thomas Jefferson University.

Program Description

Concentrations provide depth of understanding of a particular area of knowledge. Students may explore a Language and Culture Concentration in preparation for transfer to a variety of majors including Foreign Language student and International Relations.

Program Information

The Liberal Arts and Science Curriculum is Camden County College's largest and most successful transfer curriculum. The requirements among broad knowledge areas provide a breadth of understanding expected of individuals in the new millennium. Adding to its appeal is the concentration opportunities available in a number of knowledge areas. Although not specifically arranged as a discipline major, the concentrations offer students a wide range of choice in pursuing an area of knowledge in depth.

Special Program Information

As soon as possible, students are recommended to access curriculum requirements of possible transfer institutions. For students aspiring to major in disciplines related to the concentration area, their specific choices from the list of courses under each concentration should mirror as closely as possible required courses in the first two years of the major at the desired four-year college or university.

Program Description

This program is designed especially for those students who wish to pursue a career in the law, politics, or public service. As part of the program, internships are available to provide on-site training and experience in local government offices. As a transfer curriculum, this option provides the first two years of a traditional four-year baccalaureate program.

Special Program Information

As soon as possible students are recommended to access curriculum requirements of possible transfer institutions. This program provides four electives which can be used to tailor student needs to that transfer institution.

Program Description

The program consists of the study of foreign languages and cultures; history; literature, philosophy, and the arts; mathematics and natural sciences; and social sciences. The program is based on a Core-Concentration-Elective principle. Students are recommended to complete their first-year core courses before pursuing elective courses.

Program Information

The program enables students to understand the following:

- The social aspect of mankind, i.e., his behavior, culture, and political and social institutions
- The aesthetic experiences of mankind through the arts, literature, and philosophy
- The historical process, i.e., changes in world civilization through time and the interaction of political, social, and economic institutions
- The concepts underlying the natural sciences

Special Program Information

The Liberal Arts and Science curriculum is designed primarily for transfer. In order to maximize transferability of course selections, students are strongly encouraged to seek advisement prior to selection of their concentration. Concentrations are listed below.

- History
- Language and Culture
- Literature, Philosophy, and the Arts
- Math/Science
- Social Science

Please refer to the following pages for information on the liberal arts concentrations.

Program Description

This transfer program is for students with a high interest in and an aptitude for science and mathematics. The program prepares students for transfer into four-year colleges or universities primarily as preparation for a pre-professional course of study in such areas as medicine, dentistry, and physical therapy.

Program Information

The Liberal Arts and Science Program:

- Provides a foundation in general education
- Offers concentrated course work in biology, chemistry, and math
- Provides critical thinking skills for effective problem solving
- Describes major historical events and their impact on society

Employment Opportunities

- Education
- Natural Sciences
- Engineering
- Decision Science and Operations Research
- Transfer opportunities in Pure and Applied Mathematics, Statistics, Biology and Chemistry
- Transfer health career programs such as pre-medical, pre-dental and physical therapy

Recommendations

Students should select courses according to the needs of the transferring institution.

Program Description

Concentrations provide depth of understanding of a particular area of knowledge. Students may explore a Literature, Philosophy and the Arts Concentration in preparation for transfer to a variety of majors including English, Philosophy, Art or Music.

Program Information

The Liberal Arts and Science Curriculum is Camden County College's largest and most successful transfer curriculum. The requirements among broad knowledge areas provide a breadth of understanding expected of individuals in the new millennium. Adding to its appeal is the concentration opportunities available in a number of knowledge areas. Although not specifically arranged as a discipline major, the concentrations offer students a wide range of choice in pursuing an area of knowledge in depth.

Special Program Information

As soon as possible, students are recommended to access curriculum requirements of possible transfer institutions. For students aspiring to major in disciplines related to the concentration area, their specific choices from the list of courses under each concentration should mirror as closely as possible required courses in the first two years of the major at the desired four-year college or university.

Program Description

This program constitutes the first two years of a traditional four-year curriculum. It is designed for students with a strong interest in mathematics and its applications, who plan to transfer to a four-year college or university as a mathematics major in a related field. Students gain experience in the use of graphing calculators and computer software. Graduates are highly competitive as mathematics majors at four-year institutions.

Program Information

The entry-level math course for the Mathematics Option is Calculus I (MTH-140). Please note that a solid foundation in algebra and trigonometry is essential for success in Calculus I. Students in need of additional training prior to Calculus I have the option of taking the Pre-Calculus I (MTH-120) and Pre-Calculus II (MTH-130) sequence or the faster-paced College Algebra & Trigonometry (MTH-125).

Employment Opportunities

- Computer Science
- Economics and Actuarial Sciences
- Education
- Engineering
- Management Science and Operations Research
- Natural Sciences

Program Description

The Camden County College music program emphasizes a practical approach to music. It is important for students to experience musical learning hands-on. Music students at Camden County College are exposed to lectures, discussions, professional clinics and performances based on traditions and figures of musical history.

Program Information

An in-depth study of music theory, aural training, and music history serves as a foundation for students to develop their own artistic personalities. The curriculum explores the development of classroom music activities (singing, playing, composing, etc.) and a wide variety of performance experience. Students take part in numerous large and small music ensembles performing regularly throughout each semester. Through the use of music technology in our classrooms, students are able to compose, record, and listen to music in any learning situation. Graduates of this program successfully transfer to four-year institutions.

Employment Opportunities

- Composer/Arranger
- Conductor
- Music Librarian
- Music Therapist
- Newspaper Critic/Reporter
- Producer
- Professional Musician/Recording Artist
- Sound Mixer
- Teacher--Elementary, Secondary, Post Secondary, and Studio
- Tuner/Technician/Instrumental Repair

Helene Fuld Cooperative Nursing Program

Degree: **Associate in Science, Diploma in Nursing**

College Code: **NHF.AS**

Program Description

The registered nurse (RN) is a health care professional academically and clinically prepared to care for patients in a variety of health care settings. Nurses help people reach their full potential for optimal health maintenance and wellness throughout the life span.

Program Information

Graduates of the program:

- Will earn a diploma from the Nursing School and an associate degree from the College.
- Are prepared to sit for the NCLEX-RN exam for registered nurses
- Are part of the health care team, concerned with all aspects of a person's well being.

Special Program Requirements

- Graduation from an approved secondary school or a GED.
- Submission of a high school transcript or a GED certificate.
- Completion of the College basic skills requirements.
- Completion of high school biology and chemistry with a "C" or better (Equivalent courses may be taken at CCC).
- Interview with a member of the Helene Fuld School of Nursing Admissions Committee.
- Submission of two letters of reference.
- Submission of NET scores.
- Minimum SAT score of 450 math/450 verbal if taken within the past five years.
- Minimum GPA of 2.5.

For more information, visit www.helenefuld.virtua.org.

Accreditation

Helene Fuld School of Nursing is approved by the New Jersey Board of Nursing and is accredited by the National League for Nursing Accrediting Commission (NLNAC).

Employment Opportunities

- Hospitals
- Clinics
- Home care agencies
- Long term care
- Hospices

Contact Persons

College contact: Judith Dunn, Nursing Coordinator

NOTICE: Clinical placements may be a required part of the curriculum and a requirement for graduation. Clinical placements may require a criminal background check, health clearance and/or drug testing before participation is allowed. Clinical sites may deny a student's participation in the event of a positive finding. Individuals who have been convicted of a felony or misdemeanor may be denied certification or licensure as a health professional. Information regarding eligibility may be obtained from the appropriate credentialing body.

Our Lady of Lourdes Cooperative Nursing Program

Degree: **Associate in Science, Diploma in Nursing**

College Code: **NOLAS**

Program Description

The registered nurse (RN) is a health care professional academically and clinically prepared to care for patients in a variety of health care settings. Nurses help people to reach their full potential for optimal health maintenance and wellness throughout their life span.

Program Information

Graduates of the program:

- Will earn a diploma from the Nursing School and an associate in science degree from the College.
- Are prepared to sit for the NCLEX-RN exam for registered nurses.
- Are part of the health care team, concerned with all aspects of a person's well being.

Special Program Requirements*

- Graduation from an approved secondary school or a GED.
- Submission of a high school transcript or a GED certificate.
- Completion of the College basic skills requirements.
- Completion of high school biology and chemistry with a "C" or better (Equivalent courses may be taken at CCC).
- Interview with a member of the Our Lady of Lourdes Nursing School Admissions Committee.
- Submission of two letters of reference.
- Submission of NET scores.
- SAT composite score of 900 if taken within the past five years.
- Minimum GPA of 2.5.

For more information, visit www.olonursing.com.

Accreditation

Our Lady of Lourdes School of Nursing is approved by the New Jersey Board of Nursing and is accredited by the Department of Diploma Programs of the National League for Nursing Accrediting Commission (NLNAC).

Employment Opportunities

- Hospitals
- Clinics
- Home care agencies
- Long term care
- Hospices

NOTICE: Clinical placements may be a required part of the curriculum and a requirement for graduation. Clinical placements may require a criminal background check, health clearance and/or drug testing before participation is allowed. Clinical sites may deny a student's participation in the event of a positive finding. Individuals who have been convicted of a felony or misdemeanor may be denied certification or licensure as a health professional. Information regarding eligibility may be obtained from the appropriate credentialing body.

Program Description

This program is designed for students who are seeking to transfer to a health science related baccalaureate program. The successful student is academically prepared for transfer into the junior year of a four-year college or university.

Program Information

The Pre-Nursing Option:

- Enables students to earn an Associate in Science degree
- Prepares students to transfer to baccalaureate programs in nursing or related allied health professions.

Special Program Requirement

Graduation from an approved secondary school or a GED is required.

Highlights

Students graduating in this option are prepared for programs in various allied health disciplines, such as physical therapy, physician's assistant, or occupational therapy. There are articulation agreements with LaSalle University, Widener University, The College of New Jersey, Thomas Jefferson University, Rutgers College and NJIT/UMDNJ.

¹ Suggested electives for basic skills students: Introduction to Health Care Professions ALH-100 OR Medical Terminology HIT-120. ALH-210, ALH-100 and HIT-120 may not transfer, please contact the transferring institution prior to selecting electives.

² Take ALH-210 and one three-credit General Education Elective or two 3-credit General Education Electives or one 4-credit General Education Elective

NOTE: Students should seek advisement from the transferring institution of their choice for elective course selection.

Program Description

Students will learn the technical aspects of the medium as well as learning how to solve visual problems and communicate ideas through photographs. The program provides: basic black and white darkroom techniques; all phases of camera operations; studio experience; and experience with current digital imaging technology.

Employment Opportunities

- Artist
- Advertising Photographer
- Commercial Photographer
- Photojournalist
- Photo lab technician

Highlights

This program prepares students for careers in photography and transfers to four-year institutions.

¹ Must take 6 credits in one language *See individual languages under *Course Descriptions* for requirements or placement

² Chemistry of Art Materials (CHM-150) is recommended for Photography majors

Program Description

This program is designed for students with a strong interest either in physics, engineering, or photonics. The credits in this program are transferable to four-year colleges for majors in physics and any branch of engineering.

Program Information

This program provides an Associate Degree in physics that can be transferred to a four-year program in physics, Astronomy or any branch of engineering. The program can lead to higher education in photonics or optical sciences. With further training, this program allows the student to join the workforce in lasers, fiber optics, and optical communications.

Special Course Requirement

Mathematics at the level of Intermediate Algebra (MTH-109) is a prerequisite for this program.

Employment Opportunities

- Advanced physics
- Astronomy
- Material science
- Lasers
- Fiber optics
- Education

Highlights

Students of this program have successfully transferred to Rowan, Rutgers, Temple Universities and other four-year institutions.

¹ A student who is a high school graduate with two years of Physics will choose the alternate course.

² Those students interested in secondary education should take Basic Psychology (PSY-101) and Educational Psychology (PSY-103) for the two social science electives.

³ Historical Trends in American Education (EDU-101) is recommended as a humanities elective for Education majors wishing to teach Physics.

Program Description

Chiropractors are engaged in the prevention of disease and in the promotion of public health and welfare. Essentially, the treatment methods include chiropractic adjustment, dietary advice, physiotherapeutic measures, and professional counseling.

Chiropractors require keen observation to detect physical abnormalities. It also takes considerable manual dexterity, but not unusual strength or endurance, to perform adjustments. Chiropractors should be able to work independently and handle responsibility. As in other health-related occupations, empathy, understanding, and the desire to help others are good qualities for dealing effectively with patients.

Program Information

- This program provides an associate's degree which will prepare students for transfer to a chiropractic college.
- Some chiropractic colleges offer a bachelor's degree which is conferred when the student finishes the chiropractic curriculum.
- To become a doctor of chiropractic, the student will need to attend a chiropractic college such as Palmer College of Chiropractic, New York Chiropractic College, Northwestern College of Chiropractic, or Sherman College of Straight Chiropractic.

Employment Opportunities

Newly licensed chiropractors can set up a new practice, purchase an established one, or enter into partnership with an established practitioner. They also may take a salaried position with an established chiropractor, a group practice, or a healthcare facility.

Job prospects are expected to be good for persons who enter the practice of chiropractic. Employment of chiropractors is expected to grow faster than the average for all occupations through the year 2012 as consumer demand for alternative healthcare grows. Median annual earnings of salaried chiropractors were \$65,330 in 2002. Source: 2004-2005 Occupational Outlook Handbook

Contact Person

Dr. Carolyn A. Szutarski
(856) 227-7200, ext. 4306
E-mail: cszutarski@camdencc.edu

Recommendations

- Most chiropractic schools require 90 transfer credits and suggest additional course work in science, business, and computer studies.
- Students should choose a college of chiropractic as early in their pre-professional career as possible in order to select the appropriate courses.

Program Description

Prospective pharmacists should have scientific aptitude, good communication skills, and a desire to help others. They also must be conscientious and pay close attention to detail because the decisions they make affect human lives.

Very good employment opportunities are expected for pharmacists over the 2002-12 period because the number of degrees granted in pharmacy are expected to be less than the number of job openings created by employment growth and the need to replace pharmacists who retire or otherwise leave the occupation. Recently, enrollments in pharmacy programs are rising as more students are attracted by high salaries and good job prospects. Despite this increase in enrollments, pharmacist jobs should still be more numerous than those seeking employment.

Pharmacy, a rapidly growing profession, is an integral part of today's health care programs. Pharmacists work in both commercial pharmacies as well as hospital pharmacies and are often the only ones aware of the complete history of the patient's medication. The pharmacist also plays a critical role in communicating the action and side effects of medication.

Program Information

The program prepares graduates to transfer to pharmacy programs in four-year colleges and universities.

Employment Opportunities

- Hospital pharmacy
- Pharmaceutical industry
- Retail pharmacy

² Consult with Transfer Institution

Highlights

The average national salary for pharmacists is \$70,000 a year. Graduates of this program have been accepted into pharmacy programs at Temple University and the University of the Sciences.

Program Description

This program provides students with a concentration of course work in the science of psychology appropriate for a psychology major in addition to a foundation in general education.

Program Information

This program conforms to the transfer guidelines of Rutgers University-Camden for the Bachelor of Arts Degree as well as with its Psychology Major requirements.

Special Program Information

Students in this program may select any psychology course to fulfill a psychology elective or they may select a thematic cluster of courses such as: Life-Span-related courses (PSY 105,-106,-107), Mental Health-related courses (PSY 102,-104,-108); or, Work-related courses (PSY 110,-111,-112).

Campus Opportunities

Qualified students in the program are encouraged to join the College's Chapter of the Psi Beta National Honor Society in Psychology which is a member of the Association of College Honor Societies.

¹ PSY-101 Basic Psychology is recommended.

² French, German, Italian, Russian or Spanish elective is recommended.

* See individual languages under *Course Descriptions* for requisites on placement.

³ A social science elective other than a psychology elective is recommended.

⁴ ENG-271 World Literature I is recommended.

⁵ A course in Music Appreciation, Art Appreciation, Introduction to Theatre, Music or Art History is recommended.

⁶ MTH-107 - Math for Liberal Arts Majors is recommended for those planning to transfer to Rutgers University-Camden.

Program Description

Concentrations provide depth of understanding of a particular area of knowledge. Students may explore a Social Science Concentration in preparation for transfer to a variety of majors including Psychology, Sociology, Anthropology, and Economics.

Program Information

The Liberal Arts and Science Curriculum is Camden County College's largest and most successful transfer curriculum. The requirements among broad knowledge areas provide a breadth of understanding expected of individuals in the new millennium. Adding to its appeal is the concentration opportunities available in a number of knowledge areas. Although not specifically arranged as a discipline major, the concentrations offer students a wide range of choice in pursuing an area of knowledge in depth.

Special Program Information

As soon as possible, students are recommended to access curriculum requirements of possible transfer institutions. For students aspiring to major in disciplines related to the concentration area, their specific choices from the list of courses under each concentration should mirror as closely as possible required courses in the first two years of the major at the desired four-year college or university.

Program Description

The program is designed to help students demonstrate beginning competencies in speech and theatre. The program focuses on the performance aspects of theatre and on the technical aspects of set and scenery design, construction, stage management, and directing.

Program Information

This program:

- Enables students to gain presence, confidence and poise
- Enables students to develop their voices and creativity
- Prepares students for transfer into a BA or BFA program at a four-year institution
- Teaches the business of the theatre through hands-on opportunities
- Prepares students for producing student one-act plays
- Prepares students to produce a range of plays from Shakespeare to children's plays

Employment Opportunities

- Acting
- Directing
- Public relations
- Set designing
- Light design
- Stage managing

Contact Person

Professor Marjorie Sokoloff,
(856) 227-7200, ext. 4737

¹ Must take 6 credits in one language

* See individual languages under *Course Descriptions* for requisites on placement.

² Introduction to Theatre (THE-121) is recommended

Program Description

The ability to speak clearly, eloquently, and effectively has been recognized as the hallmark of an educated person since the beginning of recorded history.

Modern day communication studies also stress the role of citizenship in a civil and democratic society. The 20th century has seen the field of speech and rhetoric grow to include communication in the workplace, in families, in mass media, and in advertising, to name a few. Contemporary students of communication draw on theories and practices common in the fields of: anthropology, psychology, sociology, linguistics, semiotics, and rhetoric. The study of communication today includes all forms of: interpersonal, small group, organizational, intercultural and international, and public and mass communication. The field of communication considers how people communicate as individuals, in society, and in various cultures.

Program Information

Students:

- Explore interpersonal, small group, and public speaking forms of communication
- Focus on the dynamics of speech communications.

Employment Opportunities

- Announcing
- Broadcasting
- Communications consulting
- Law
- Marketing
- Teaching

³ If selecting Computer Information Systems elective, select a Computer Science (CSC) course.

Career/Program Description

Sport Management is an all-encompassing term associated with the management of sport, fitness/wellness, and leisure recreation programs. An increased growth in competitive athletics, sport participation by all segments of society, and sport-related businesses has created a need for individuals trained in sport management. This program will prepare students for a managerial career in the world of sport and sport-related endeavors. Students will be trained in personnel management, budgeting, facility management, programming, media relations, policy development, marketing, public relations, sports administration, contract negotiations and general management.

Career Opportunities

Amateur Competitive Athletics
 Professional Sports
 Sports Agencies
 Municipal Recreation and Sports
 Sport Merchandising
 Sport News Media
 Health & Fitness
 Resort Recreation
 Specialized Sport Resorts & Instructional Programs

¹Students are encouraged to consult transfer institution for appropriate lab science elective

Program Description

This fine arts degree in studio arts program prepares students for transfer into four-year art colleges as well as providing foundation art skills for those pursuing careers in the visual arts.

Program Information

This program will:

- Provide students with a foundation in fine art
- Prepare students for further study in the arts
- Provide a concentration of course work appropriate for a studio artist
- Develop an understanding of aesthetics in order to evaluate the art product
- Ensure transferability of course work to four-year art colleges
- Prepare students to produce a portfolio of work

Program Objectives

Upon successful completion of all course work, students will be able to:

- Demonstrate an understanding of vocabulary and analytical skills necessary to participate in a dialogue about an art work
- Create and present various solutions to solving visual problems
- Communicate effectively in a visual manner
- Demonstrate competency in drawing, design and their art specialization
- Identify the major art movements in the evolution of art
- Discuss current contemporary art in relation to their own art
