## iPhone FunWare Essentials

Learn how to program applications for the iPhone and iPod Touch

June 22nd - 26th at Camden County College's Cherry Hill Campus

Apple iPhone programmers are in **big demand**. Where the rest of the economy is in a downturn, **Apple keeps growing** it's market share.

Over One Billion Apps Downloaded From Apple's App Store In Only 9 Months

More Than 30 Million iPhone and iPod Touch devices sold last year

The owners of the iPhone and iPod touch are **demanding apps** for their appliances. The Apple App Store is **the new California Gold Rush**. Get in on the ground floor.

This is a one week seminar presented by the Appware Institute in partnership with Camden County College.

### Who can take this class?

Programmers who have a working knowledge of object oriented programming.

### Who should take this class?
