## ABRAKADOODLE

In Abakadoodle kids explore, create and learn in action-packed programming filled with color, texture, shape and fun! The program is carefully designed to promote creativity and imaginative thinking and we are dedicated to providing educationally rich visual art experiences for children. Abakadoodle uses only child-safe, high quality Crayola® art materials and most creations go home in a brightly colored Framedoodle. Abakadoodle is a perfect match for both new and experienced artists!

In the first session, join Camden County College and Abakadoodle on an Art-rageous adventure which will SPAN the world as we explore exciting new creative art forms. During our travels, we will visit the land of mummies as we learn about bold art created by ancient Egyptians, then it is off to the French countryside to create soft watercolor paintings in the style of Pierre Bonnard. The fun doesn't stop there! Also featured is Portuguese artist Leonor Brazão who enjoys creating art that is inspired by music and full of movement. We will be using fun materials such as Model Magic®, Tempera Paint, and Watercolor Paint.

In the next session of Abakadoodle, we will experience bold and exciting art from the tops of our heads to the tips of our toes! Our projects will be so unique and full of movement they might just BOUNCE off the page! We will have a blast working with modeling compounds as we learn about Israeli artist Gil Sadeh who loves to create facial sculptures full of expression. Then we'll put our fingers to work as we create unique landscape as inspired by artist Chuck Close and MUCH more. This session promises tons of fun and is a great opportunity to experience a variety of artistic styles while creating an interesting "body" of work!!! We will be using fun materials such as Model Magic®, Tempera Paint, and Oil Pastels.
