

## MCSA 2003: Microsoft Certified Systems Administrator

The new Microsoft Certified Systems Administrator (MCSA) on Microsoft Windows 2003 computer networking credential will advance your career by ensuring you have the skills to successfully manage and troubleshoot system environments running on the Windows 2003 operating system. The MCSA credential proves that you have the skills to successfully implement, manage, and troubleshoot the ongoing needs of a Microsoft 2003 based platform, including Programming with Microsoft SQL Server. To ensure the highest quality of education, Camden County College students are provided extensive hands-on experience, quality textbooks and simulated testing software. 18 CEU's

## MCSE 2003 & MCSA 2003: Microsoft Certified Systems Engineer, Microsoft Certified Systems Administrator

The Microsoft Certified Systems Engineer credential is the premier computer networking certification for professionals who want to analyze the business requirements for a system architecture, design solutions, deploy, install, and configure architecture components, and troubleshoot system problems. The Microsoft Windows 2003 track is designed for individuals interested in becoming information technology professionals working in a typically complex computing environment of medium to large organizations. The curriculum that Camden County College is offering will also provide students with the knowledge and experience to become a Microsoft Certified Systems Administrator. The four courses that are required have been incorporated into the MCSE track to enhance your certification resume. The MCSA credential proves that you have the skills to successfully implement, manage, and troubleshoot the ongoing needs of a Microsoft 2003 based platforms, including Microsoft SQL Server. To ensure the highest quality of education, Camden County College students are provided extensive hands-on experience, quality textbooks, and simulated testing software. 32 CEU's

**Hours:** 320  
**Course #:** CE.CST 018  
**Total Cost:** \$5,280 Certification Tests are not included  
(Tuition \$2320, Lab Fees \$2660, Materials \$300)

*Not Eligible for Senior Citizen Discount*

## CCNA Boot Camp

This course combines Cisco ICND1 and ICND2 in an intensive program designed to help you achieve your CCNA certification in the shortest period of time possible. To maximize your classroom experience and ensure that you get comprehensive coverage of the CCNA materials, our blended learning approach to the CCNA Boot Camp consists of pre-class online training for ICND1 and classroom instruction for ICND2.

**CLASSES FORMING NOW!**  
Please see Web site for dates and times.  
[www.camdencc.edu/ce](http://www.camdencc.edu/ce) • 856-874-6004

The pre-class activity provides the materials and exercises designed to prepare you for the ICND1 portion of the CCNA exam which will give you the foundation needed to prepare for the classroom instruction. Classroom instruction includes intensive instructor-led training and hands-on labs where you'll learn to install, configure, operate, and troubleshoot medium-sized routed and switched networks. This course covers the objectives needed for the Cisco exam 640-802 CCNA 2.

Hours: 60  
Course #: CE.CST-068  
Total Cost: \$2,695

**ELIGIBLE FOR UP  
TO 12 CREDITS  
AT CCC!**

*Not Eligible for Senior Citizen Discount*

## Microsoft Exchange Administration

In this hands on course students will learn to install and manage an Exchange network of servers. Students will also learn to integrate Exchange into an existing Exchange network and develop a seamless upgrade path. New concepts in management are explored, such as multiple databases, single seat administration, and extending the active directory. Some topics include Exchange integration with Windows, testing the client with Outlook, administration with the MMC, database backup and restore, routing groups, administrative groups, Windows Management Interface (WMI) and accessing public folders. 3.6 CEU's

### Prerequisite:

It is recommended that students have 2 years networking experience or training equivalent.

Hours: 36  
Course #: CE.CST 030  
Total Cost: \$799 Certification Tests are not included  
(tuition \$296, lab fees \$403, text & materials \$100)

## Network+ Certification by CompTIA

Now, more than ever, network technicians need to be certified in order to advance in the industry. A quick look at the help wanted ads will convince you that it pays to get certified. The marketplace is so starved for qualified personnel; a well-trained certified technician can easily find work in the industry. Whether you're looking to upgrade your skills, advance your career, or start a career in networking then the Network+ certification course is for you. 6 CEU's

**ELIGIBLE FOR UP  
TO 6 CREDITS  
AT CCC!**

### Certification Tests:

- CompTIA NETWORK+ Certification (Prometric Testing Center)

Hours: 60  
Course#: CE.CST 008  
Total Cost: \$1,099 Certification Tests are not included  
(tuition \$402, lab fees \$642, materials \$55)

*Not Eligible for Senior Citizen Discount*

## CISCO Certified Entry Networking Technician (CCENT)

The Cisco CCENT certification validates the skills required for entry-level network support positions, the starting point for many successful careers in networking. Candidates should have the knowledge and skill to install, operate and trouble-shoot a small enterprise branch network, including basic network security. CCENT certification is the first step toward achieving CCNA, which covers medium size enterprise branch networks with more complex connections. This course, in particular, is really for a person who is either getting trained to enter their first job, like a network operations job, or is assisting another CCNA to configure a small network.

### Prerequisite:

Students need to have basic computer knowledge that includes the ability to use a mouse, edit and save files. File copying, disk copying, moving and renaming directories in a Windows environment are essential. Network+ Certification is an excellent prerequisite for this program.

### Certification Tests:

640-822 Interconnecting Cisco Networking Devices Part 1 (ICND1)

Hours: 40  
Course #: CE.CST-066  
Total Cost: \$899 (certification tests are not included)  
(Tuition \$374, Lab Fees \$395, Text and Material \$130)

**CLASSES FORMING NOW!**

## CISCO Certified Entry Networking Technician/CISCO Certified Network Associate (CCENT/CCNA)

Cisco sees CCNA as its flagship curriculum, so it wants to be sure it's in step with technological advances as they occur. In light of this, the CCNA curriculum has been revised to include more networking topics and focus on performance-based skills. The Cisco CCNA network associate certification validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks, including implementation and verification of connections to remote sites in a WAN. This new curriculum includes basic mitigation of security threats, introduction to wireless networking concepts and terminology, and performance-based skills.

### Prerequisite:

Students need to have basic computer knowledge that includes the ability to use a mouse, edit and save files. File copying, disk copying, moving and renaming directories in a Windows environment are essential. Network+ Certification is an excellent prerequisite for this program.

### Certification Tests:

640-802 Cisco Certified Network Associate (CCNA)  
640-822 Interconnecting Cisco Networking Devices Part 1 (ICND1)

Hours: 80  
Course # CE.CST-067  
Total Cost: \$1,695 (certification tests are not included)  
(Tuition \$699, Lab Fees \$866, Text and materials \$130)

**ELIGIBLE FOR UP  
TO 12 CREDITS  
AT CCC!**
