

Camden County College Technology Career Tracks

Camden County College has established one of the largest and longest running Technology Academies in New Jersey, with experienced instructors and a proven track record of success. We look forward to helping you find your new career in the IT Industry.

The Technology Industry requires trained professionals with a strong foundation of skills to fill the vast positions being offered today. Camden County College has designed several Technology Career Tracks to propel students and working professionals into a specific field of their choice.

The TCT's will allow students to receive internationally recognized certifications and/or build a portfolio designed to demonstrate skills to prospective employers. Each TCT has been comprehensively developed to provide the necessary skills to compete in today's Technology Sector. Prices listed below are for bundled programs. Individual classes are priced slightly higher. Job placement assistance and options for financing are available.

Technology Support Specialist (TTS)

The TTS Technology Career Track is designed to give someone with little or no computer experience entry level training. The skills learned in this track will provide students the ability to "get their foot in the door." Proficiencies gained will be used in any hands-on technical specialty. You will also build a complete computer (included in price) which is yours to keep. This Career Track is great for those students who enjoy hands-on activities.

COURSES INCLUDED

- BYOC (build your own computer)
- CompTIA A+ and Net+
- Microsoft Desktop Support Technician

CERTIFICATIONS

- A+, Net+, MCP, MCDST

Prerequisite: None, but preferred would be basic computer navigation and comprehension of basic terms (See Computer Fundamentals).

Cost: \$4,500

Hours: 250

Computer Fundamentals

For those students who have no computer experience we recommend the Computer Fundamentals course for general preparation or just as a refresher. Only 24 hours long, it can be taken in addition to any of the Career Tracks. Some of the topics covered will include:

- Keyboarding
- Introduction to the PC
- Microsoft XP/Vista fundamentals and navigation
- Internet/Email Basics
- Troubleshooting the PC

Cost: \$449

Hours: 30

Microsoft Certified IT Professional Windows Server 2008 with Vista

The MCITP program is Microsoft's newest certification path designed to support Windows Server 2008 with Vista clients. This path does not replace, but compliments the MCSA/MCSE 2003 certifications and is designed to prepare administrators for the transition to Vista and Server 2008 that will happen in the business community over the next several years.

COURSES INCLUDED

- Microsoft Certified IT Professional Server Administrator
- Microsoft Certified IT Professional Enterprise Administrator

CERTIFICATIONS

- MCTS, MCITP Server Admin, MCITP Enterprise Admin

Prerequisite: General networking knowledge with one year recent experience or equivalent certifications.

Cost: \$5,499 **Hours:** 350

Cisco Security Specialist

The Cisco Career Track is designed to give someone with intermediate knowledge of networking additional advanced skills. Cisco is the leader in switching and routing equipment and this course prepares you for one of the most sought after Certifications in the technology industry. Each student will have their own equipment and interconnect it to complete class projects. Advanced routing and switching topics will be covered relating to LAN and WAN connectivity.

COURSES INCLUDED

- Cisco Certified Entry Networking Technician
- Cisco Certified Network Administrator
- CCNA Security

CERTIFICATIONS

- CCENT, CCNA
- CCNA Security

Prerequisite: Intermediate knowledge required, two years recent networking experience or equivalent certifications.

Cost: \$2,399 **Hours:** 140

Security Technology Professional (STP)

Security is the largest growing sector of the IT field. The STP Career Track is designed to give industry professionals the ability to become proficient in a variety of network environments, design and manage an organization's security infrastructure, and safeguard IT resources. This includes choosing the hardware and software, locking down those systems, and identifying possible weaknesses while hardening against attack.

COURSES INCLUDED

- CompTIA Network+
- CompTIA Security+
- Certified Ethical Hacker

CERTIFICATIONS

- Network+, Security+, CEH, CHFI

Prerequisite: None, but preferred would be basic computer navigation and comprehension of basic terms (See Computer Fundamentals on p. 6).

Cost: \$2,699 **Hours:** 220

Microsoft Certified Systems Administrator / Cisco Certified Network Administrator MCSA / CCNA

This bundle is designed for administrators working in small to mid-size information services departments which require a wider skill set with both information technology and networking training. The MCSA 2003 credential develops the skills to successfully administer corporate enterprise systems and support users with Server 2003 and XP operating systems. The CCNA certification validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks.

COURSES INCLUDED

- Microsoft Certified Systems Administrator
- Cisco Certified Network Administrator

CERTIFICATIONS

- CCENT, CCNA, MCP, MCSA

Prerequisite: General networking knowledge with one year recent experience or equivalent certifications.

Cost: \$4,000 **Hours:** 260

Medical Office Specialist

With jobs in the medical field in-demand throughout the region, this program is an excellent beginning to a new career. Medical Office Specialist is designed to prepare students for an entry level position as a medical office assistant, medical secretary, medical receptionist, medical billing clerk, medical coding technician, or medical records technician in a general office environment, medical clinic, or hospital setting. Students will develop strong administrative skills along with medical framework necessary to succeed in an automated environment. Skills students learn include: medical terminology, medical billing-Medisoft, ICD-9 medical coding, insurance claim processing, HIPAA, as well as Microsoft Office 2003/2007.

COURSES INCLUDED

- Office Technology
- Office Administrator Specialist
- Medical Office Administrator

CERTIFICATIONS

- Word, Excel, PPT, Access
- Medical Billing and Coding
- Medical Office Assistant
- Customer Service

Prerequisite: No prerequisites are necessary for this program.

Cost: \$10,000 **Hours:** 780
