Visual Basic .NET Programming

Get on the fast track to professional application development with Visual Basic .NET. This practical, hands-on course guides you through the fundamentals – using step-by-step exercises, code samples, optimization tips, and real-world advice to accelerate your productivity. It's everything you need to start creating .NET-connected software now!

Discover how to:

- Create a compelling user interface with Toolbox controls, menus, and dialog boxes
- Use the .NET Framework class libraries
- Automate Microsoft Office applications and manage processes
- Manage Windows Forms and create graphics and animation effects
- Manage databases and create custom database applications with Microsoft ADO.NET
- Develop Web applications at the professional level.
- Learn web form design and use of code-behind files.
- Deploy XML web services, Crystal reports, data validation, user and custom server controls, cookies, and security.

Hours: 98

Course # CE.CPG 046

Cost: \$1,695 - Textbooks not included (Tuition \$595, Lab Fees \$1,000, Materials \$100)

Not Eligible for Senior Citizen Discount

Become a Database Administrator *Showcase your talents with Microsoft SQL Server 2005*

MCITP: Database Administrator

Microsoft Certified IT Professional: Database Administrator (MCITP: Database Administrator) is the premier certification for database server administrators. This certification demonstrates that you can keep up with your enterprise business solutions 24 hours a day, 7 days a week.

Database administrators install or configure Microsoft SQL Server and manage or maintain databases or multidimensional databases, user accounts, database availability, recovery, and reporting. They also design or implement security or server automation and monitor and troubleshoot SQL Server activity. Database administrators are typically employed by mid-size to large organizations.

Hours: 152

Course #: CE.CPG-057

Total Cost: \$2,356 – Textbooks and Certification Exams not included (Tuition \$798, Lab Fees \$1,558)
