

# Security

## CompTIA Security+ Certification

Security+ is a vendor-neutral certification exam that covers the foundations of information security. Financial losses due to computer breaches average \$1.5 million per company. Theft and destruction of intellectual property takes place despite the presence of firewalls, encryption and corporate edicts. Neither technologies nor policies alone offer effective information security. The IT industry must have a well-trained work force to effectively combat hackers and decrease financial losses. 4.8 CEU's

### Prerequisite:

Students need to have basic computer knowledge that includes the ability to keyboard, edit and save files. File copying, disk copying, moving and renaming directories in a Windows environment are essential. Network+ Certification Program is an excellent prerequisite for this program.

### Certification Tests:

- CompTIA SECURITY+ Certification (Prometric Testing Center)

Hours: 48

Course#: CE.CST 033

Total Cost: \$899 Certification Tests are not included  
(Tuition \$352, Lab Fees \$492, Material \$55)

*Not Eligible for Senior Citizen Discount*

Rte. 70 and Springdale Rd.  
Cherry Hill

## Certified Ethical Hacker

This 40 hour hands-on vendor neutral certification preparation class is for those interested in understanding hacking and the counter measures needed to secure a network. Course topics include common exploits, vulnerabilities and countermeasures. Students will also explore the tools used by hackers in exposing common vulnerabilities as well as the tools used by security professionals for implementing countermeasures. To become certified students are required to pass an industry certification test given by Prometric Testing.

**To stop hackers  
you need to understand them.**

### Certification Tests:

Ethical Hacking and Countermeasures (312-50) (Prometric Testing)

Hours: 40

Course # CE.CST 027

Total Cost: \$799 (Tuition \$210, Lab Fees \$514, Text and material \$75)

# Need A New Career? Take a Career Program!

## Certified Desktop Support Technician

This specialized 200 hour, hands-on, comprehensive course will focus on instruction in upgrading, troubleshooting, repairing, and configuring personal computers. Students will also become proficient in troubleshooting Microsoft Windows Desktop Operating Systems as well as supporting and troubleshooting Microsoft Desktop Applications. In addition to the technical skills, students will also gain a foundation in customer service, business etiquette, professionalism, and business communications. At the conclusion of this course, students will be prepared to take the certification exams for CompTIA A+ and Microsoft Certified Professional in Desktop Support.
