

Security

CompTIA Security+ Certification

Security+ is a vendor-neutral certification exam that covers the foundations of information security. Financial losses due to computer breaches average \$1.5 million per company. Theft and destruction of intellectual property takes place despite the presence of firewalls, encryption and corporate edicts. Neither technologies nor policies alone offer effective information security. The IT industry must have a well-trained work force to effectively combat hackers and decrease financial losses. 4.8 CEU's

Prerequisite:

Students need to have basic computer knowledge that includes the ability to keyboard, edit and save files. File copying, disk copying, moving and renaming directories in a Windows environment are essential. Network+ Certification Program is an excellent prerequisite for this program.

Certification Tests:

- CompTIA SECURITY+ Certification (Prometric Testing Center)

Hours: 48

Course#: CE.CST 033

Total Cost: \$899 Certification Tests are not included
(Tuition \$352, Lab Fees \$492, Material \$55)

Not Eligible for Senior Citizen Discount

Certified Ethical Hacker

This 40 hour hands-on vendor neutral certification preparation class is for those interested in understanding hacking and the counter measures needed to secure a network. Course topics include common exploits, vulnerabilities and countermeasures. Students will also explore the tools used by hackers in exposing common vulnerabilities as well as the tools used by security professionals for implementing countermeasures. To become certified students are required to pass an industry certification test given by Prometric Testing.

**To stop hackers
you need to understand them.**

Certification Tests:

Ethical Hacking and Countermeasures (312-50) (Prometric Testing)

Hours: 40

Course # CE.CST 027

Total Cost: \$799 (Tuition \$210, Lab Fees \$514, Text and material \$75)
