The COA is used by the financial aid office to calculate the student's maximum eligibility for assistance (including loans). If you are enrolled in a program that has higher tuition and fee costs (i.e. nursing) your COA will be adjusted accordingly.

The costs for personal, room, and board expenses are estimated based upon national averages. Your actual expenses may vary based upon your personal spending habits. If you have expenses not listed here such as for education loan fees, mandatory equipment or supply costs, your COA is subject to individual adjustment by the financial aid office. Please contact the office for additional information.
