

Make a Payment

“Make a Payment” is designed for you to pay your bill online. You must use a credit card for this option. Camden County College accepts Visa, MasterCard, and Discover. Please click on the Help tab that is available on each online payment form for step by step directions. Registration is not complete until payment is made or authorized payment plan arrangements have been made, such as approved financial aid, 3rd party payment documentation, etc.

IMPORTANT: You must officially drop classes by refund deadlines or you will be liable for tuition and fee charges. You can drop classes via WebAdvisor.

Paying for the Summer Semester

The College requires 100% payment at the time of registration for the summer semester. Your classes may be dropped if you do not make full payment at the time of registration.

Paying for Fall and Spring Semesters

Full payment is due at the time of registration. The College offers a payment plan option for Fall and Spring credit registration only. If you choose to participate in the payment plan option, you must pay a minimum of 50% of your total bill at the time of registration. Your classes may be dropped if you make less than a 50% payment. You must also complete the [Payment Plan Contract](#) and return this form to the business office within one week of registration. Payment is deferred for students who register during designated priority/early registration periods. See semester tabloids or other published information for specific dates when deferred payment is available.

Please note that if you add additional classes after your initial registration, you must pay an additional 50% of the added costs in order to prevent your classes from being dropped.

All Prior Balances Must Be Paid First

The College requires that all prior balances be paid in full before registering for a subsequent semester. Once you have paid your prior balance, you may need to notify the Business Office (856-227-7200, ext. 4312) in order to be permitted to register. Payments made will be applied to prior balances first.

Tuition Waiver Programs

The College offers tuition waivers under various programs. Students requesting a tuition waiver may not register online using WebAdvisor, but must come in person to one of our three locations to complete appropriate forms. Even though The College waives tuition, these costs may still appear in your balance on WebAdvisor.

Paying for Non-Credit Courses (Continuing Education)

You are able to use WebAdvisor to register and pay for Non-Credit Courses. The College requires 100% payment at the time of registration for a Non-Credit Course. Your registration for non-credit courses will not be accepted without making full payment.

For more information on payment, Visit our [FAQ](#).
