<b>TOTAL CREDITS</b>		<b>60</b>	

### PROGRAM DESCRIPTION

The Preschool Teacher Education Applied Associate of Science Degree (PTE.AAS) prepares students to work with young children in a variety of settings including home day care, childcare settings, Head Start programs and private preschools. This program emphasizes the developmental needs of young children from birth to the eighth year of life. Students will learn how to design and apply developmentally appropriate activities for children ages birth to eight years through fundamental course work along with an internship in an early childhood setting.

### PROGRAM STUDENT LEARNING OUTCOMES

At the end of the program, the graduate will be able to:

1. Design developmentally appropriate early childhood curriculum and plans in five subject areas.
2. Compare and contrast early childhood development theorists such as Piaget, Vygotsky, Gardner and Erikson.
3. Identify the essentials necessary to promote a safe and healthy environment for children.
4. Apply course work to an early childhood field experience.
