PROGRAM DESCRIPTION

This selective associate degree program will prepare students for a career in Surgical Technology. Surgical Technologists are an integral part of the operating room team. They prepare sterile instruments and supplies needed for procedures. The Surgical Technologist remains throughout the surgery passing the necessary items needed

PROGRAM STUDENT LEARNING OUTCOMES

At the end of the program, the graduate will be able to:

1. Demonstrate expertise in the theory and application of sterile and aseptic technique.
2. Integrate knowledge of human anatomy, pharmacology, microbiology, surgical procedures and implementation tools and technologies to facilitate successful performance of invasive and diagnostic procedures.
3. Effectively participate in various surgical procedures through suitable selection of instrumentation and supplies promoting effective patient care.
4. Successfully prepare for the certification examination and employment in the surgical technology field.

SPECIAL ADMISSION REQUIREMENTS

1. Apply to Camden County College.
2. Apply to the Surgical Technology Program.
3. Attend a minimum of one (1) information session. Dates will be available from program representative and on the website.
4. Must have a cumulative GPA of 2.5.
5. Applicants that meet all requirements and follow directions of the process completely will have an interview.

PROGRAM INFORMATION

1. Students must achieve a grade of "C" or better in all required courses and maintain an overall minimum GPA of 2.5.
2. Clinical rotations are conducted during the daytime. The Director assigns students to specific locations. Students must obtain a minimum of 600 hours and a specific number of surgical procedures to satisfy program completion and eligibility for the national certification examination.
