

TRANSFER SERVICES

Transfer Planning Guide for 4-Year Colleges & Universities

The purpose is to help students start the process of searching and choosing a transfer college/university with a major of interest to pursue their career goals. Please have this form completed before requesting a Transfer Services appointment.

Step 1: Begin with a general Google search for degree programs of the desired transfer major. Note the school location and tuition cost. (see financial aid/scholarships in step 2)

Step 2: Once you find a school of interest, then search for the following information:

- Name of 4-Year School?
- Does this school have my major of interest to help me to achieve my career goals?
- What is the minimum GPA requirement for transfer students?
- When are transfer application deadlines?
- What financial aid and scholarships are available to transfer students?
- When do they accept transfer students (Fall, Spring, Both semesters)?
- Are SAT or high school transcripts required for transfer students?
- Are there any additional items I may need to submit, such as an essay or portfolio?
- Is it a graduate level program? If so, what's the best undergraduate degree to have for this graduate program?
